

CENTERSYS, INC.

PROCESS IMPROVEMENT & GROWTH  
WITH  
CENTERSYS

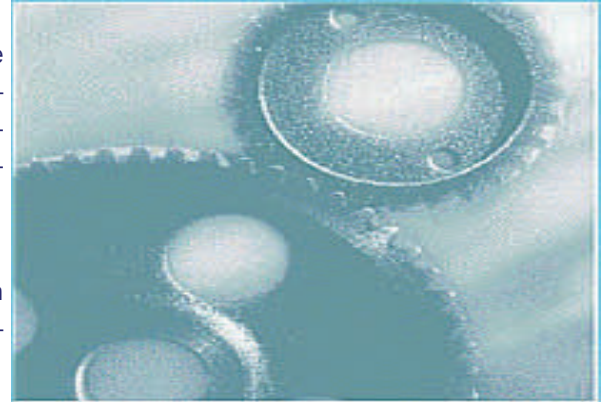

**OUR MISSION:**

To provide best-of-breed business automation software solutions and services to our clients at the lowest possible cost.

Headquartered in New York City, Centersys is a multi-faceted software products and services firm, providing proven automation solutions, independent expertise and comprehensive automation products suite to financial institutions, investment advisories, buy and sell side brokerages, custodians and clearing houses.

Since inception in 2002 Centersys has achieved a 100% client retention rate, ensuring the recurring success of each product and service we provided by leveraging our absolute commitment to customer satisfaction.

Unsurpassed technology expertise is the cornerstone of our service offerings, enabling our clients to parley our know-how into competitive advantage for their businesses. When you demand value, superior functionality, unparalleled service and a rapid return on every investment dollar, depend on CenterSys as a strategic business partner.

We invest in your success by providing the best-in-class automation solutions and services within our proprietary group of sophisticated time-tested software technologies and platforms. We implement, customize, and upgrade your enterprise software and ensure the rapid deployment of specific technologies by offering unprecedented levels of flexibility and knowledge. CenterSys recognizes that enterprise software can present numerous complexities and frustrations, especially in the dynamic financial market place. We are equipped to provide your organization with the expertise and skill sets required to convert costly, inefficient processes into streamlined "mission critical" solutions required by the market.
